## Dissertation

An original, academic written product of the systematic study of a significant problem that follows a coherent methodology, independent research and comprehensive thinking. An appropriate organization and documentation is part of it. A supervisor (typically a SMC faculty member) accompanies and discusses the student's work, closely checks the progress and takes on academic responsibility.

## Dissertation Defense

Upon completion of the regular course work and dissertation, students are required to pursue the obligatory Dissertation Defense. This oral performance review is structured as a hearing vis-à-vis the Academic Defense Committee of SMC at one of our Learning Centers. The Defense has the purpose to challenge aspects of the candidate's research work, allowing the students to proof their integrity by defending the underlying argumentation.
